Components updated during Maintenance Window

The following components may be included in any maintenance window update:

1. Google Cloud infrastructure
2. IP Office common components such as CAS, COM, CSI, etc.
3. Phone binaries (Avaya IX Workplace & Vantage)
4. IP Office software images

Impact on services during the Maintenance Window update

1. IP Office licenses may move into grace mode for a short duration during the update time frame and subsequently phones may show a "License expired" message. The licenses will become available again once the update is complete with no action needed by the end user.
2. IP Office Upgrades Backup/Restore, Logs Management from COM will fail if running during the update.
3. Remote log capture using Sysmon will stop and will resume once the update is complete, with no action needed from the end user.

4. Remote IP Office monitoring using SSA will stop and the end-user will need to reconnect SSA once the update is complete
5. Remote management (Over COM proxy), will not be available during the update or may be disconnected multiple times during the update
6. Remote connection to IP Office over SSH, RDP, and HTTPS will not be available during the update

The following services will not be impacted

1. Telephony Operations.
2. Local access to administration and user applications such as Web Manager, User portal, etc.
3. Local log capturing using Sysmon.
4. Local IPO monitoring using SSA

Recommendation: Don't make any IP Office configuration changes during the maintenance window updates.
